

About SMSI-2025

The International conference on “Sustainable Materials, Structures and IoT (SMSI-2024)” is scheduled to be hosted by Department of Civil Engineering, IGIT Sarang. It focuses on both theory and practical applications in the broad areas of Engineering. SMSI is a multidisciplinary conference organized with the objective of bringing together academicians, scientists, researchers from industry, research scholars, and students working in all areas of Engineering. This conference will create awareness about the importance of basic research in different fields matching with the current trends. Also, the conference will provide the authors and listeners with opportunities for national and international collaboration and networking among universities and institutions from India and abroad for promoting research and developing technologies.
